Attachment A: Conditions of approval and additional information

Attachment A – Conditions of approval and additional information

This road vehicle type substantially complies with the applicable national road vehicle standards and the non-compliance is only in minor and inconsequential respects or to a minor and inconsequential extent.

The respects in which vehicles of the type are not required to comply with the applicable national road vehicle standards are described in Attachment A2 and references to the documents that demonstrate compliance or substantial compliance with the national road vehicle standards can be found in Attachment A1

Importation of road vehicles

In accordance with section 22 of the *Road Vehicle Standards Act 2018* (the Act), the holder of this road vehicle type approval, or a person authorised in writing by the holder of this road vehicle type approval, is permitted to import a road vehicle of a type to which this approval applies.

To confirm whether this approval remains in force visit <https://rover.infrastructure.gov.au/>

Entering the Vehicle onto the RAV

In accordance with section 9 of the Road Vehicle Standards Rules 2019 (the Rules), the holder of this road vehicle type approval, or a person authorised in writing by the holder of the approval, may enter a vehicle to which this approval applies onto the RAV once the vehicle is in Australia.

Conditions of the approval

This road vehicle type approval VTA-047155 is subject to a range of conditions.

The breach of a condition of an approval is a serious matter. The approval holder is reminded of their obligations to comply with the conditions of the approval, as set out in section 28 of the Rules.

Potential penalties for breach of a condition of an approval may include but are not limited to:

- suspension or revocation of the approval
- an infringement notice of 12 penalty units for executive officers of a company or individuals, or 60 penalty units for a company
- court action such as civil penalty proceedings or criminal prosecution, which could result in a maximum penalty of 120 penalty units

Two types of conditions apply to this approval:

Standard conditions

Standard conditions apply to all road vehicle type approvals and are set out in Part 3, Division 2 of the Rules. These conditions are set out in **Attachment A3**.

Specified conditions

In accordance with paragraph 25(a) of the Rules, this road vehicle type approval is subject to additional conditions as specified in **Attachment A4**.

Automatic suspension of an approval

As set out in section 202 of the Rules, a road vehicle type approval will be automatically suspended if certain circumstances exist relating to compliance with new or amended national road vehicle standards.

You will be notified in writing twelve, six and three months prior to the time that a new or amended national road vehicle standard becomes applicable. To maintain the currency of this approval you will need to demonstrate compliance with the new or amended national road vehicle standard or apply to vary the approval under section 197(2) of the Rules.

Recalls of approved road vehicles

Approval holders are reminded of their obligations related to the recall of type approved vehicles, as set out in Part 3 of the Act and Part 8 of the Rules.

Further information on recalls and compliance with obligations is available at:

<https://www.infrastructure.gov.au/infrastructure-transport-vehicles/vehicles/vehicle-recalls>

Expiry of this approval

This approval is valid for the dates set out on page one of the approval notice, unless revoked sooner.

Where an approval holder wishes to continue to hold a road vehicle type approval for this type of vehicle after the expiry date of this approval, it is important the approval holder applies for a new road vehicle type approval well in advance of the expiry date. It may take up to 60 business days for the new application to be assessed.

Attachment A2 – Specified Non Compliance

In accordance with section 23(2)(e) of the Rules, this attachment sets out, where relevant, the respects in which vehicles of this type are not required to comply with the applicable national road vehicle standards in order to be entered on the RAV.

ADR 13/00 - Installation of Lighting and Light Signalling Devices on other than L-Group Vehicles

The 'chassis-cab' variants of this vehicle type do not comply with:

Position requirements of ADR 13/00 for the following lamps and reflectors:

- Reversing lamps
- Rear direction indicator lamps
- Rear reflex reflectors
- Rear registration plate lamps
- Rear position (side) lamps
- Stop lamps

The manufacturer must provide instructions, guidelines and references to the relevant ADRs (that must be met) to whoever is responsible for completing chassis-cab vehicles.

Specified non-compliances are minor and inconsequential.

ADR 42/04 - General Safety Requirements

The 'chassis-cab' variants of this vehicle type do not comply with:

Clause 14.2. of ADR 42/04 for wheel guards (Mud Guards).

The manufacturer must provide instructions, guidelines and references to the relevant ADRs (that must be met) to whoever is responsible for completing chassis-cab vehicles.

Specified non-compliances are minor and inconsequential.

ADR 61/03 - Vehicle Marking

The 'chassis-cab' variants of this vehicle type do not comply with:

Clause 9.1.1 of ADR 61/03 for provision of a rear registration plate.

The manufacturer must provide instructions, guidelines and references to the relevant ADRs (that must be met) to whoever is responsible for completing chassis-cab vehicles.

Specified non-compliances are minor and inconsequential.

Attachment A3 – Standard conditions of the road vehicle type approval

The standard conditions for all road vehicle type approvals are set out in Part 3, Division 2 of the Rules and automatically apply to this approval. Each of the following requirements is a condition of a road vehicle type approval:

Section 26 of the Rules - Condition about compliance with national road vehicle standards

The holder of the approval, at all times:

- must ensure that vehicles covered by the approval, at the time they are entered on the RAV, comply with the applicable national road vehicle standards as in force at that time, except in the respects, or to the extent, mentioned in the approval; and
- must be able to produce evidence that:
 - demonstrates that vehicles covered by the approval comply with those standards to the extent mentioned in the approval; and
 - the Secretary could take into account for the purposes of subsection 19(2) of the Rules; and
- must not give instructions, for the purposes of paragraph 51(e) of the Rules, that would result in a vehicle covered by the approval ceasing to comply with the applicable national road vehicle standards as in force at the time the Secretary granted the approval, except in the respects or to the extent that vehicles of the type are not required to comply with those standards in order to be entered on the RAV under this approval.

Section 27 - Condition about conformity of production system

The holder of the approval must have a conformity of production system that governs the manufacturing process detailed in the supporting information for the approval.

The system must ensure that, at the time that a vehicle is entered on the RAV under the approval, the vehicle satisfies the requirements of the type approval pathway under section 15 of the Rules.

Section 28 - Condition about notifying the Secretary of errors in RAV entries

The holder of a road vehicle type approval must notify the Secretary if they become aware of an error in information entered on the RAV under the approval (whether by the holder of the approval or a person authorised in writing by the holder). The holder of the road vehicle type approval must notify the Secretary of the error as soon as practicable after becoming aware of the error.

Section 29 - Condition about providing information

The condition that the holder of the approval, when requested in writing by the Secretary or an inspector, and within such reasonable time as is specified in the request:

- provide, or arrange for the Secretary or inspector to access, the original and any subsequent versions of the supporting information for the approval; and
- provide any information that the Secretary or inspector reasonably requires for the purposes of assessing whether the holder of the approval is complying with the Act, the Rules, or an instrument made under the Act or the Rules; and

- provide any other information or documents specified in the request about vehicles to which the approval applies; and
- provide written answers to questions, specified in the request, about vehicles entered on the RAV under the approval; and
- for the purpose of assessing whether vehicles entered on the RAV under the approval comply with the applicable national road vehicle standards, allow or arrange for the Secretary or an inspector to inspect:
 - premises where road vehicle components of those vehicles are designed or manufactured; or
 - premises where those vehicles are designed or manufactured; or
 - things associated with the design or manufacturing process, including documents, vehicles and components

Section 30 - Condition about record keeping

A holder of a road vehicle type approval is required to keep the original and subsequent versions of the supporting information for the approval whilst it is in force and for a period of 7 years after it expires or is revoked. All supporting information must be kept up to date whilst the approval is in force.

Attachment A4 – Specified Conditions

In accordance with section 25 of the Rules, this approval is also subject to the following specified conditions:

Notification of recall action

The holder of this approval must advise the department, as soon as practicable, if **overseas recall action** is undertaken in relation to a similar type of vehicle as that to which this approval applies.

In this condition:

overseas recall action means a voluntary or compulsory recall of vehicles in an overseas jurisdiction.

Notification of systemic safety or non-compliance issues with the road vehicle

The holder of this approval must notify the department, as soon as practicable, of any **systemic issues** with vehicles covered by the approval that:

- will or may cause injury to any person; or
- mean that a reasonably foreseeable use (including a misuse) will or may cause injury to any person; or
- causes the vehicle to not, or to likely not, comply with the applicable national road vehicle standards (except to the extent or in the respects to which this approval specifies that the type of vehicle is not required to comply with the applicable standards).

In this condition:

systemic issue means an issue affecting [a class]/[more than one] of the vehicles covered by this approval.

You may request that I provide reasons for the decision to specify conditions on this approval. Such a request must be made in writing to ROVERinfo@infrastructure.gov.au quoting the road vehicle type approval number near the top of this document. I will provide reasons within 28 days of your request.

You may also apply to the Administrative Review Tribunal (ART) for review of the decision to specify conditions on the approval. Please see <https://www.art.gov.au/> for further information.
